

# The 2009 American Movie Nights

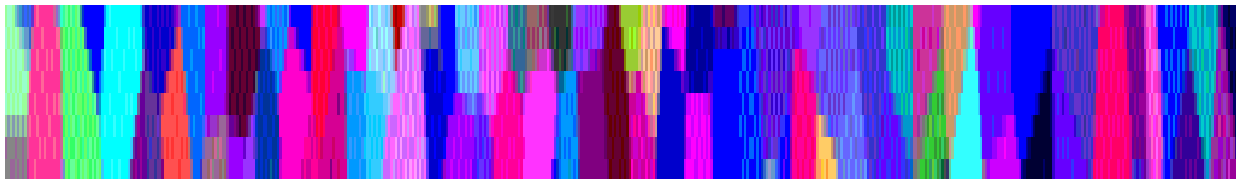

## *North Country*

(October 29, 7:00 P.M.)

The U.S. Embassy is pleased to invite you to a special public screening of the movie *North Country*, on October 29, 7:00 p.m., at the American Corner, Cultural Center of Suriname. Based on a true story about female iron miners in Minnesota, *North Country* features Academy-award winners Charlize Theron, Sissy Spacek, and Frances McDormand, in a film that dramatizes the plight of female workers in a male-dominated industry and how one woman stood up to set in motion the first ever class action suit in the history of the American legal system and change the sexual harassment law in the United States.

Our October movie presentation is in support of the United Nations campaign to stop violence against women.

at the **American Corner**  
2<sup>nd</sup> Floor, Cultural Center of Suriname, Henk Arronstraat  
(An American film is featured every month)
